

## Product Profile

### IMMUNE DEFENSE TONIC (Formerly known as Echinacea • Baptisia Compound)

#### Immune System Tonic

A blend of the liquid extracts of:

* <b>Echinacea root</b> (Echinacea purpurea)	25%
• <b>Astragalus root</b> (Astragalus membranaceus)	25%
• <b>Reishi mushroom</b> (Ganoderma lucidum)	20%
• <b>Schisandra berry</b> (Schisandra chinensis)	20%
• <b>Prickly Ash bark</b> (Zanthoxylum clava-herculis)	10%

\* Fresh • Dried

**Actions:** The herbs in this compound have been shown to augment the body's natural ability to resist disease by strengthening and potentiating the immune system. This includes a cortisone-like activity, anti-tumor activity, and increased production and activity of interferon, macrophages, properdin, fibroblasts, T-lymphocytes (killer T-cells), and lymphokines.

**Uses:** Indicated in any condition associated with a **weak or compromised immune system**. Especially indicated for those whose "resistance is down" and are therefore prone to every "bug" that comes around, and those who are plagued by recurring infections, or are slow to heal. Specific as immuno-supportive therapy in treatment of all **infections** (bacterial, viral & fungal), **chronic inflammatory diseases** (e.g., arthritis), **allergies**, **AIDS**, and **cancer**.

**Dose: Acute:** Two to five times per day, take 30 to 40 drops in water. Continued use in chronic conditions: Two or three times per day, take 20 to 40 drops in water. Take drops 6 days per week, for 6 weeks; then skip a week (take no drops); then repeat the same cycle. One to three months' use may be necessary for meaningful results.

**Adjunct Therapy:** In persistent or severe cases, add 30 to 40 drops of ECHINACEA EXTRACT to the above doses.

**Cautions:** This compound is not a substitute for qualified healthcare. If you have a condition that requires medical attention, you should promptly seek qualified healthcare. This is especially true in cases of AIDS and cancer, or any condition involving high or persistent fever or pain.
